

MLK

The Microbox MLK Series Micrographic Readers.

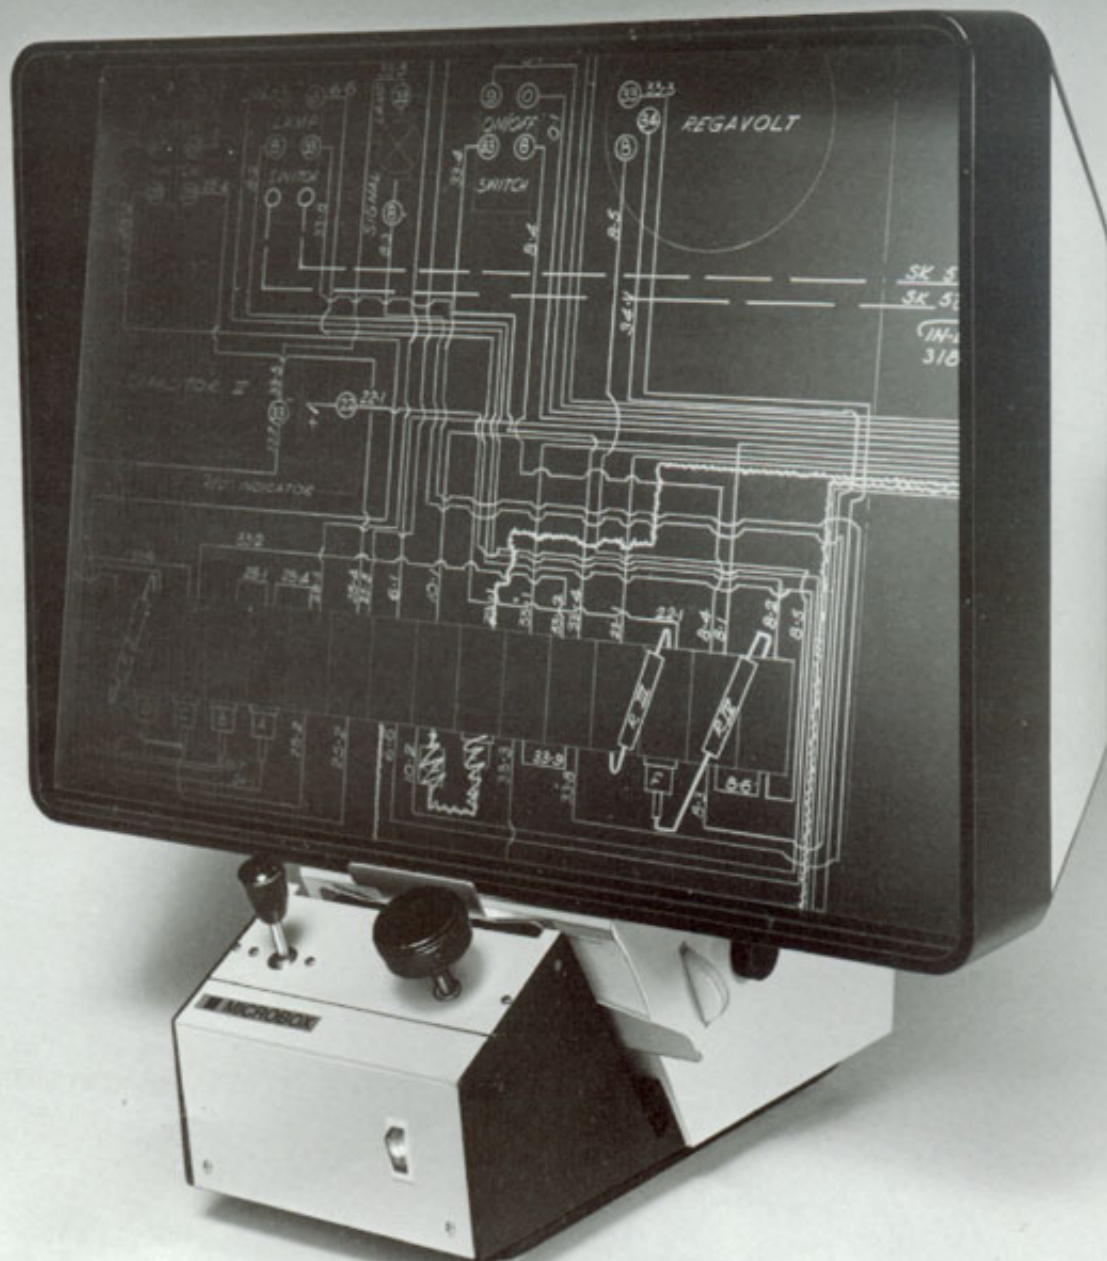

Micrographic Readers

With a choice of three models each accepting many formats of microfilm media, the Aarque Microbox MLK 1, 2 and 3 Readers offer you the benefits of meticulous engineering.

Extremely easy to use, either model will accept Aperture cards, 35mm roll film, 16mm roll film, microfiche, and jackets.

Each model features a proven lens system to ensure sharp image resolution over the full screen area.

Micrographic Readers

Features

Installation and Service

Simple plug in components with easy access means that the MLK Readers are extremely simple to install and maintain.

Even Illumination Is provided by a quartz halogen lamp, the intensity of which can be varied to control the illumination to ambient light.

Screen Hood Designed to reduce the effect of ambient light upon the screen, coupled with

proven tinted screen angle, to facilitate easier viewing by a seated observer.

Magnification Ratios

Two ratios for each reader, selected by a unique push-pull knob that also controls focus. The lower ratio permits viewing of the complete image; the higher ratio permits detailed observation of the microform.

Scanning and Positioning Is controlled by a multi-directional

joystick lever that moves the aperture card carrier in relation to the lamp and lens. This control is lockable to hold image in any required position.

Built-in Safeguards

Protect the microforms from accidental damage. Effective ventilation of the image carrier and a heat filter prevent film overheating even after prolonged viewing.

Optional Equipment

The MLK Readers are

supplied with an aperture card holder and dust cover as standard. Optional extras include an additional third lens; an image rotation prism for one lens only; a 35mm and 16mm roll film carrier with automatic gate; fiche/jacket holder; and turntable.

Specification

	MLK 1	MLK 2	MLK 3
Screen size (mm)	860 x 600	610 x 425	435 x 300
Basic enlargement ratio	21x	14.8x	10.5x
Additional enlargement ratio (partial detail)	42x	29.7x	21x
Power consumption	185W	185W	185W
Illumination (Halogen lamp)	15v 150W	15v 150W	15v 150W
Electrical supply	240v 50Hz	240v 50Hz	240v 50Hz
Weight (Kilograms)	29	19	14
Desk space required	580 x 160	430 x 160	430 x 160
Width (mm)	915	660	480
Height (mm)	840	655	530
Depth (mm)	765	610	490
