YOUR TOTAL SOLUTION FOR PRINTING AND SCANNING. VIEW-ON-

SCREEN, choose 'Print-to-Paper' or 'Scan-PC'. The new digital technology makes microfilm media more powerful, versatile and cost effective. The 2400DSV is the ideal solution for a wide range of applications primarily because of its versatility and ease of use. WITH DUAL OUTPUT, you can switch from printing to scanning to your PC at the 'touch-of-a-button'. It's modular design makes it ideal for low-medium volume scanning of all formats of media from Microfiche, Jackets, Aperture Cards 16 & 35mm Roll Film and 16mm "M" and "ANSI" Cartridges. The KODAK 2400DSV is built on proven products the 2400D Digital Reader Printer and the 2400DS Digital Universal Scanner but combines the 'best-of-both-worlds' into an 'award-winning' new product.
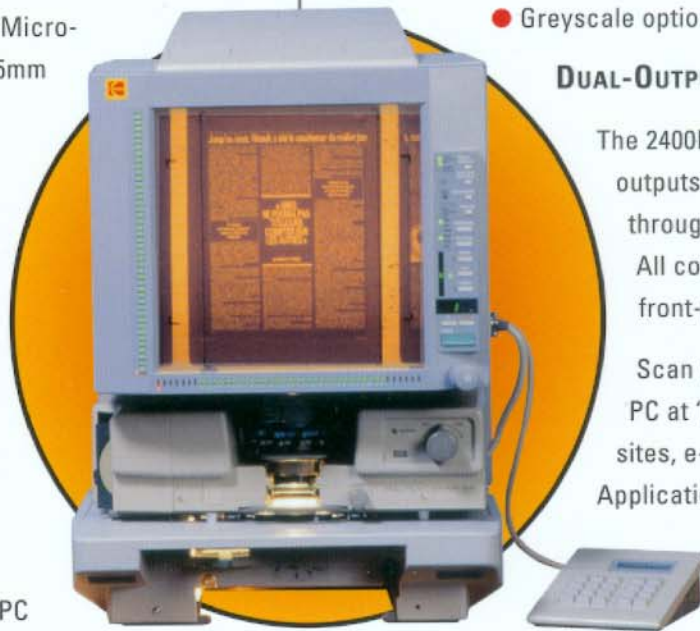

KEY FEATURES

- Automatic Image Rotation as standard
- Selectable Printing or Scanning to PC
- Scan at up to 800dpi for Web based publishing applications
- Interchangeable carriers for all media formats
- Interchangeable lenses for exact image blowback
- Electronic Zooming from 50-200% of original image size

- Choice of 16mm media controllers for Image Marked (blipped) film
- PowerFilm Version 5 feature-rich Application Software for Windows NT4/2000
- Printing to either a high-speed A3/A4 laser printer or dedicated A4 units
